

RESUME

Tanisha Pradeep

📞 +91 8050092828

✉ tanisharp06@gmail.com

📍 Bengaluru, India

PROFESSIONAL SUMMARY

Dedicated Computer Science student with a strong foundation in full-stack development, algorithms, and database management. Proficient in the MERN stack, Python, Java, C, and SQL, with a focus on delivering scalable, user-centric solutions. Proven track record of leadership and collaborative problem-solving as a Core Committee member of Coretechs and Junior Coordinator of DSync. Passionate about leveraging technical expertise to contribute to impactful, data-driven projects.

EDUCATION

B.E OF COMPUTER SCIENCE ENGINEERING (WITH DATA SCIENCE)

B.M.S College Of Engineering (CGPA 8 as of second year engineering)

Sep 2024 – Aug 2028 | Bengaluru

PRE-UNIVERSITY

Sadhana Base Integrated PU College

Sep 2021 – Feb 2024 | Bengaluru (88% State Board)

PRE SCHOOL TO 10TH GRADE

National Hill View Public School

Jun 2009 – May 2021 | Bengaluru (90% CBSE)

SKILLS

- Programming: Python, Java, C
- Web Development: HTML5, CSS3, JavaScript, Node.js, Express.js, React.js, REST APIs
- Database: MySQL, Database Design, MongoDB, Star-Schema
- Tools: Git, GitHub, Postman, VS Code, Power BI, Power Query Editor
- Data Science: NumPy, Pandas, Data Visualization (Matplotlib), Power BI Dashboards, DAX (Data Analysis Expressions)
- Core Concepts: Data Structures & Algorithms, OOP

PROJECTS

BARK-LYTICS – CANINE HEALTH & ACTIVITY ANALYSIS DASHBOARD

May 2026 – Jun 2026

- Developed a multi-page business intelligence application to analyze multidimensional canine health and behavioral datasets.
- Led the end-to-end implementation including data engineering pipelines, star-schema modeling, and dashboard tracking.
- Designed a relational data model using advanced DAX expressions to handle custom calculated metrics and dynamic KPI tracking.
- Collaborated on implementing interactive AI-driven visuals like Key Influencers and Decomposition Trees for root-cause analysis.

ONCOTRACK – CANCER CARE & RECORD MANAGEMENT SYSTEM

Oct 2025 – Jan 2026

- Developed a full-stack web application to streamline cancer patient data management
- Led the end-to-end development including database design, backend APIs, and dashboard implementation
- Designed a normalized database schema using ER modeling
- Collaborated on planning and execution of features, ensuring efficient project delivery

LEGALAID – AI-POWERED LEGAL DOCUMENT ANALYSIS PLATFORM

Oct 2025 – present

- Developed a specialized web platform to simplify complex legal documentation using Natural Language Processing (NLP)
- Architected a processing pipeline utilizing a BERT model for semantic analysis and Ollama-based LLMs for jargon translation and rights breakdown
- Built a secure backend using Node.js and Express with a PostgreSQL database to manage encrypted file metadata and user authentication
- Designed an intuitive React dashboard allowing users to upload documents and receive real-time, AI-generated legal summaries and court simulations.

PYTHON HANGMAN – INTERACTIVE GAME & LOGIC ENGINE

Oct 2024 – Dec 2024

- Developed a terminal-based interactive application using Python to simulate classic word-guessing game mechanics
- Engineered the core game engine using conditional logic, loops, and state management to handle user attempts and game-over scenarios
- Implemented file handling to dynamically load word datasets and input validation to ensure robust error handling against invalid characters
- Utilized string manipulation and list indexing to create a dynamic UI that updates the game board in real-time based on user input.

LEADERSHIP AND EXPERIENCE

Core Committee Member – Coretechs

- Collaborated with cross-functional teams to organize and execute technical events and initiatives .

Junior Coordinator – DSync

- Led and coordinated team activities, ensuring smooth execution of club operations and events .

CERTIFICATIONS

- Python complete BOOTCAMP : Udemy

LANGUAGES

- English (C2 - Proficiency)
- Kannada (B2 - Upper intermediate)
- Hindi (A2 - Pre-intermediate)
